

# ATE – Antwerpen-TriRegio-Express

Direct rail connection Weil UBF / Basel Bad. UBF - Antwerp

Efficient additional service.

The new ATE Antwerp TriRegio Express is a useful addition to our existing barge and rail portfolio to the **western seaports**. Our direct train connects the border triangle Switzerland / Germany / France with Antwerp by a twice-weekly round trip. The train serves the Antwerp seaport terminals 1700/1718/1742 directly. Terminals 869 / 913 are served by water taxi. The ATE also ensures stability in the case of bottlenecks on the Rhine caused by periods of low water, for example or closure to shipping due to flooding.
