

CRIMMITSCHAU

# WE CAN DO (ALMOST) ANYTHING FOR YOU!

## *MUCH MORE THAN STORAGE – OUR PASSIONATE TEAM DELIVERS EFFICIENT LOGISTICS!*

Crimmitschau lies at the heart of Europe and is thus an **important nodal point** for logistics in the European hinterland. This enables direct, efficient door-to-door delivery to the customer.

We also provide you with **individually tailored warehousing solutions** for smoothly-functioning warehousing processes – reliably, from one source. You can be sure of a service that optimises your day-to-day business while saving you time and costs.

**Integrated in our strong terminal-network in the European hinterland, we can fulfill (almost) all your wishes.**

\* Ha! Exotic animals always go down well in marketing! But don't worry, you can be sure that in real life our dealings are always ethically, morally and legally correct.

# 17,000 m<sup>2</sup> FOR YOUR LOGISTICS REQUIREMENTS

Thanks to its perfect situation in close proximity to Hof, Crimmitschau offers an unbeatable advantage for your logistics. **After travelling directly from the Port of Hamburg to our terminal in Hof**, the goods are efficiently handled and transferred to Crimmitschau by truck – **an ideal connection** that makes Crimmitschau a hub at the centre of Europe.

Thus we can offer you fast, reliable door-to-door distribution to the end customer as well as comprehensive warehousing services.

## YOUR BENEFITS AT A GLANCE

- **Maximum capacity use**  
17,000 m<sup>2</sup> area for varied types of goods, from crates to spare parts, can be split into units as small as 2,000 m<sup>2</sup>, thanks to an innovative fire protection concept.
- **Optimally connected**  
Centrally positioned for fast distribution throughout Europe.
- **Intelligent architecture**  
U-shaped hall structure enables handling independently of weather conditions.
- **Flexibility and efficiency**  
Combines warehousing and transport services for optimal processing.

**WE PROVIDE OUR WAREHOUSING SERVICES  
AS PART OF THE INTERNATIONALLY KNOWN  
CONTARGO NETWORK, YOUR PARTNER  
FOR THE COMPLETE SUPPLY CHAIN IN THE  
EUROPEAN HINTERLAND.**

With Contargo you benefit from a flexible, efficient container transport concept that optimally links rail, road and inland waterways. We plan the best route along our strong terminal network and respond fast to your individual transport needs.

Our advanced IT gives you an overview at all times and ensures that your processes are transparently and efficiently controlled. All from one source, all for you. And all truly sustainable. Our fleet of around 90 e-trucks with their own charging infrastructure has played a substantial part in winning us the German Sustainability Award.

# YOUR TRANSPORT – OUR MISSION!

## USE CASES – CRIMMITSCHAU AS AN OPTIMAL LOGISTICS HUB:

1

### Warehouse for long-distance transports | Import warehouse for international deliveries

- A company transports goods along the Baltic route and needs a warehouse facility for temporary storage.
- An Eastern European company transporting beverages to Germany uses our warehouse as a handling site and distributes the goods centrally via Contargo's combined transport (road/rail) along our strong network.
- Commissioning of pallets and national distribution in Germany by (e-)truck.

2

### (Buffer) storage for manufacturing companies | Warehousing for raw, semi-finished and finished products

- Interim storage to avoid bottlenecks and cover production peaks.
- Storage of raw materials and daily transport to production site by truck, as required.
- Storage of finished products, delivery to customers (e.g. construction markets, retailers, car producers) as required, or preparation for collection.
- Storage of export goods and loading of containers directly from the warehouse.
- Imported goods unloaded, sorted according to instructions and stored on pallets – including labelling and film packaging.

3

### Collection warehouse for third-party vendors and suppliers

- Cost-efficiency: Save warehousing costs, as self-owned warehouse premises are no longer needed.
- Optimised delivery: Faster access to goods and direct collection for faster distribution.

?

### Your Use Case is different?

**No problem, our Crimmitschau Team always finds a solution!**

Use the strategic location, the perfect connections and our all-round service to bring your logistics processes to the next level.

## THERE FOR YOU PERSONALLY!

You can trust our many years of experience and our dedicated team, who are passionate about ensuring the safe and efficient warehousing of your goods.

**We look forward to  
cooperating with you!**
